How to update TagPrint Pro 4.0 to the latest stable build

1. Open the TagPrint Pro 4.0 application.
2. Select the “Utility” tab at the top of the TagPrint Pro 4.0 window.
3. Choose “Enter License Key”.

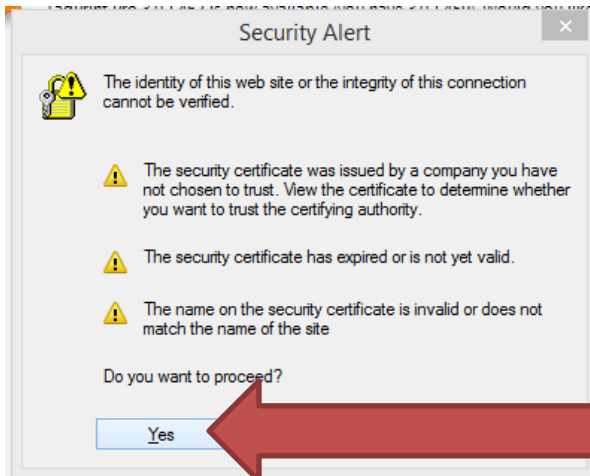

4. Highlight and copy (use the CTRL + C keys) the license key that is displayed in the window.

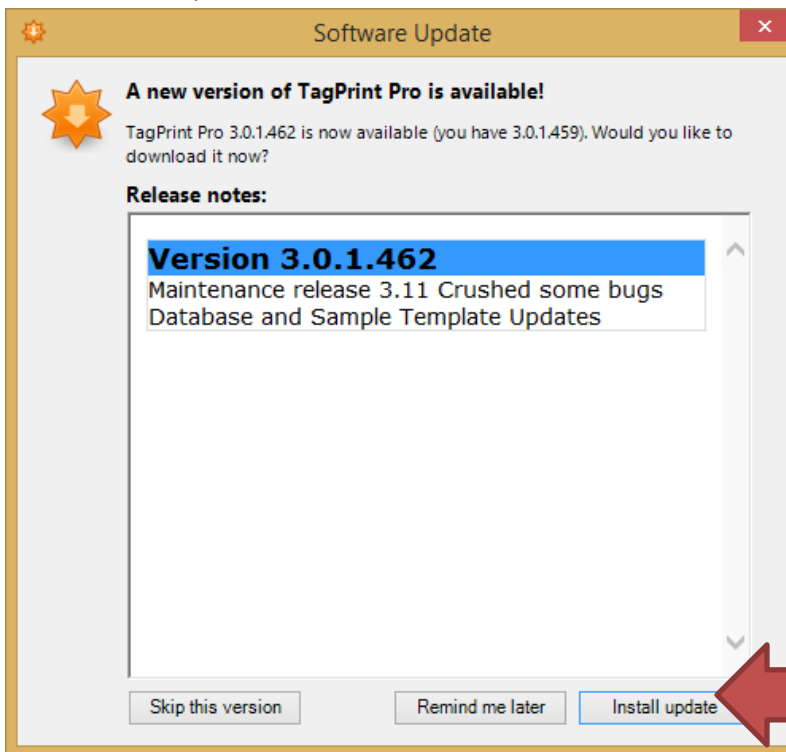

5. Select “Check for Update” from the Utility tab.

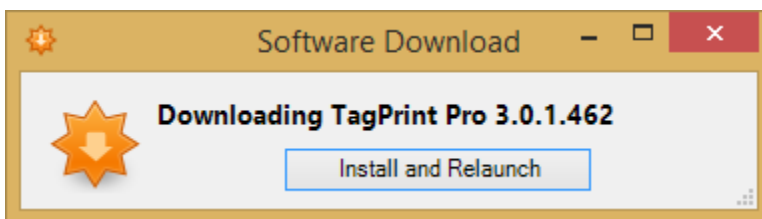

- Accept the Security Alert by selecting “Yes”.

- Select “Install Update” if there is a new version available.

- Select “Install and Relaunch” on the next window.

- Install the software.
- Once the software is installed, open the TagPrint Pro 3.0 application.
- Navigate to the “Utility” tab.

12. Choose "Enter License Key".
13. Paste the license key into the field. Use the CTRL + V keys to paste.
14. Select "Test".
15. Select "OK" to close the window
